

Midtown Greenway trails extension into St. Paul

The following motion was approved by the Midtown Greenway Coalition board of directors
On December 1, 2004

The Midtown Greenway Coalition supports extending the Midtown Greenway cycling and walking trails east into St. Paul. Furthermore, the Coalition recommends that the following resolution be considered at the upcoming joint meeting of the St. Paul and Minneapolis City Councils:

Whereas the Midtown Greenway is nearing completion of Phase III to the Mississippi River, and

Whereas funding has been secured to extend the Midtown Greenway across the Mississippi River on the Milwaukee Shortline railroad bridge that is north of Lake Street/Marshall Avenue and south of Franklin Avenue,

Now therefore be it resolved that the cities of Minneapolis and St. Paul support a vision of continuing the Midtown Greenway cycling and walking trails east into St. Paul.
